

This documents show how to create a multiple filter from ModernAD

In the table, clic on Search Builder

And then click to 'Add Condition'

Select your parameters and then conditions you want

Note: Pls do not use the conditions Equals for parameters have more than two value result

You can added more condition and value, and also switch between And/OR

Close Search Tab:

To close the search tab with keeping the result, pls click to the top X

The screenshot shows the 'Custom Search Builder (2)' interface. On the left, a vertical sidebar contains an 'And' button and a close button 'x'. The main area displays three search conditions: 'Name' (Contains 'me'), 'Last Logon' (Before '2023-03-01'), and an 'Add Condition' button. To the right of each condition are buttons for '>' and 'x'. A blue arrow points to the top 'x' button in the top right corner, indicating how to close the search tab while keeping results.

Clear Search Tab Result :

To clear the current filter, plus clic on the X from all conditions you want to remove

The screenshot shows the same 'Custom Search Builder (2)' interface. A green box highlights the 'x' button next to the 'Last Logon' condition, with a text label 'To remove current conditions' and a blue arrow pointing to it. Another blue arrow points to the 'x' button next to the 'Add Condition' button, indicating how to remove individual conditions to clear the search results.
